

**Preparing to use the Cloud,
creating User ID's for your staff**

Please Note:

Sending Data will be blocked from PC Software once you activate the Cloud

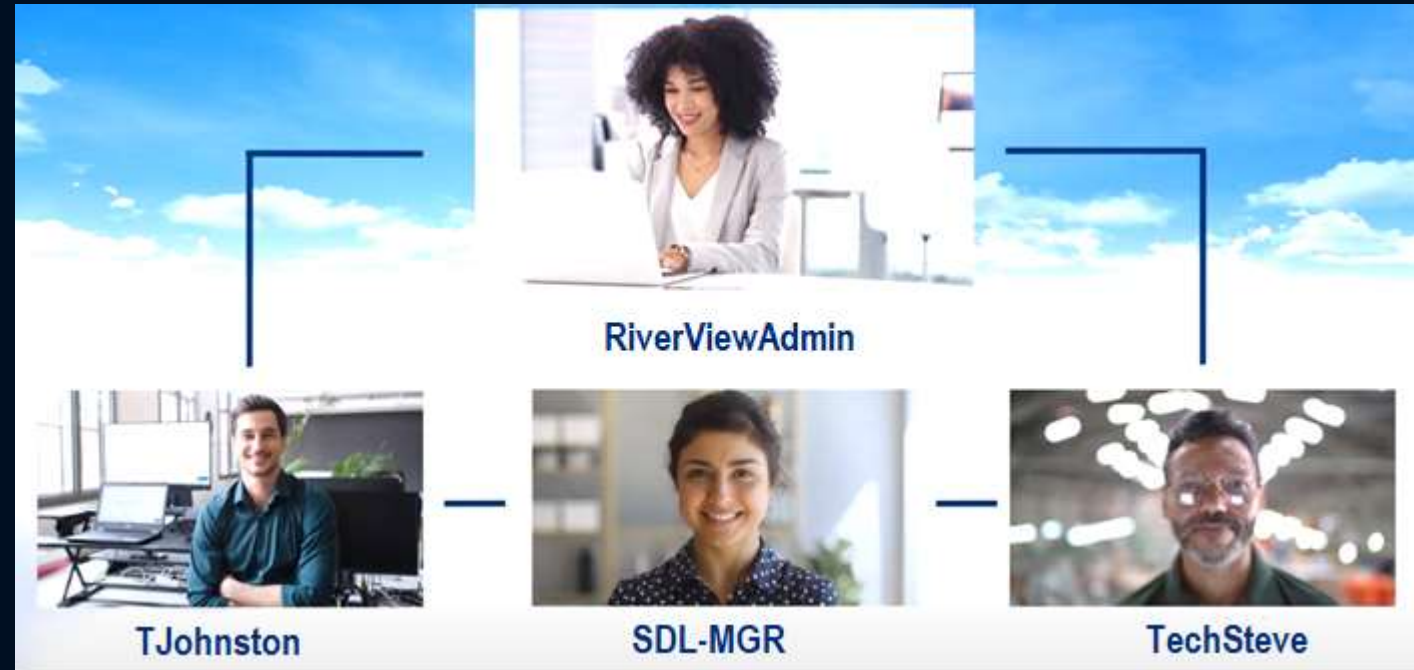

- ✓ Make sure everyone on your team is ready to use the cloud before making the move!

Cloud access:

- ✓ One of the new features in the Cloud is the ability to track “who made a change”
- ✓ So... each person should have a unique User ID

For the system registered Owner:

- ✓ Log in with your existing Username and password
- IM Server Log In
- DKS Cellular Log In

DKS Server Login

Choose your Registration Type.

Various types of registration are available through this site.

Click the **IM / DKS VoIP** button below to register for an **IM Server Modem** subscription, an **IM Server VoIP** subscription, or as a person who only programs existing systems, including via direct modem.

To register for Voice and data plans using our DKS Cellular devices, click the **DKS Cellular** button below.

IM / DKS VoIP

Choose this option to activate any of the following registrations:

DKS VoIP: Utilize the DKS Voice-Over-IP telephone service, and program your entry systems using our Plug & Play™ networking.

- **Voice and Data Service**
For 1830 Series entry systems.
- **Voice Only Service**
For all DoorKing entry systems.

DKS Data over IP: Plug & Play Internet programming.

- **Data over IP Service** (formerly IM Server Client).
For 1830 Series entry systems with an existing phone line.

IM Server Modem: Program your entry systems over the internet from your PC using the existing telephone line connected to the entry system.

Data Entry: For those programming entry systems that already have an active subscription. Or if you program your entry system using a direct connection or your own PC modem.

DKS Cellular

Choose this option to activate your DKS Cellular plans for DoorKing Cellular compatible entry systems. The following Service Types are available:

- **Voice and Data Service.**
- **Data Only Service.**
- **Voice Only Service.**

Creating a User ID:

- ✓ Fill in the Contact Information
- ✓ Choose a User ID
- ✓ Choose a Password
- ✓ If the "Register" button is not live, check that email and passwords match. These are Case Sensitive

Register your DoorKing Account Manager software to receive update notifications and other benefits, and to enable Internet programming via the DK IM Server.

This is step 1 of 2:

1. Registration.
2. Internet programming setup (optional).

If you have already registered, [log in here](#).

Decide whether you'll be using Internet Programming.

This finishes step 1 of 2:

1. Registration.
2. Internet programming setup (optional).

[Live Chat now](#)

Please select one of the following three options (you can change this selection later by logging into your Profile page).

☐ I want to program my Entry Systems over the Internet using the IM Server Modem, DKS VoIP Voice + Data or DKS Data over IP services, or to to use DKS VoIP Voice-Only service.

Choose this option to set up and activate any IM or DKS subscriptions for use with your Entry Systems:

- DKS VoIP Voice and Data Service - voice (phone) and data transfer over your Internet connection.
- DKS VoIP Voice Service - voice (phone) service over your Internet connection.
- DKS Data over IP - Plug and Play programming over your Internet connection.
- IM Server Modem - use your PC's internet connection and our Modem Server to program your Entry System over its existing land line phone.

Selecting this enables you to register your entry systems for use with any of the above options.

☒ I am registering as a 'Data Only or Cloud User' user, in order to program systems which already have IM Server subscriptions, or to program systems for which I have a manually configured direct connection.

Choose this option if you will be doing either of:

- Programming Entry Systems that have a subscription being paid for by another registered User. You will be able to connect with any system that has been activated by another party.
- Logging into the DKS Cloud and programming systems that I have been given permission to access.
- Connecting to your Entry Systems manually, using a Modem at your PC, a hard wired serial connection or a manually configured network connection.

There is no cost for this 'Data Only' subscription. You will periodically receive program and product update information.

☒ I am registering as a 'Data Only or Cloud User' user, in order to program systems which already have IM Server subscriptions, or to program systems for which I have a manually configured direct connection.

Choose this option if you will be doing either of:

- Logging into the DKS Cloud and programming systems that I have been given permission to access.

✓ Registration completed
