Provides visitor access control into apartment buildings, gated communities, condominiums, office buildings, factories and industrial sites

Visitors use the phone system to communicate with a resident who can grant or deny access via their own touch-tone telephone

Provides service for up to 1000 residents

Programmable directory codes can be set from 1 to 4 digits

2 year limited factory warranty

Best suited for applications that do not require a directory, or where a separate directory already exist

- modular design makes installation and service easy
- dtmf tone output usable with PBX, KSU and telephone systems with auto-attendants
- two mount styles surface and flush are available
- built-in display indicates door/gate has been opened

Access Control Solutions
