1812 ACCESS PLUS
TELEPHONE ENTRY PLUS ACCESS CONTROL

Control from a PC
The 1812 Access Plus combines the essential features of the 1812 Classic and 1812 Plus, and includes programming software allowing you to customize your system right from your PC. Lock and unlock access points with the click of a mouse, schedule time zones and add or delete access codes.

DKS Plug & Play Connection Services
The 1812 Access Plus unit allows Voice and Data connection over either Cellular, Internet, or POTS. DKS offers easy ways to connect fast using the DKS connection services. With the easy to use Access Plus Account Manager programming software, you can customize the system immediately. Connection and set up is a snap.

ACCESSORY SELECTIONS:
Card Readers & Keypads
DoorKing carries a full line of DKS, AWID and HID proximity card readers and cards. DKS 1500 Series Keypads provide access control for virtually any application where standalone digital code entry is desired. Wireless RF controls allow remote operation of vehicular access gates from the safety and convenience of a vehicle.

Heaters & Camera Kits
Heater kits available that allow telephone entry systems to remain operating in cold environments. Camera kits available as an add-on to most telephone entry systems.

Mounting Posts & Kiosks
Several styles of mounting posts are available from DKS. Architectural and designer style posts are typically used with the larger telephone entry systems and are available in goose neck styles for vehicular traffic or straight styles for walk-up pedestrian use. The mounting kiosks are ideal for walk-up pedestrian applications and are designed for DKS flush mount telephone entry systems only.

EMAIL ALERTS
Set up to receive an email on selected activities.

MOBILE
When not at home, receive calls and grant/deny access from your cellular phone.

CAMERA READY
Using an IP camera, view who is at your door or gate.

ACCESS TIME ZONES
Pre-set times for entry -- give a delivery person access.

Voice communication and/or data (programming) to your DKS telephone entry/access control system via the AT&T 4G LTE wireless network.

Use an internet connection for voice and/or data (programming). Compatible with your own VoIP provider, or use DKS’s.

POTS (Plain Old Telephone Service) is still available and DKS allows you to connect and program. (POTS is not recommended as DoorKing can no longer guarantee modem connections.)
