• Tenants do not need central office phone service to be connected. Use a touch-tone telephone plugged into the wall jack for instant connection

• Guest are identified by voice communication via the telephone. Access is granted by pressing “9” on the touch tone telephone, or access can be denied by simply hanging up

• System can accommodate up to 1200 tenants. No reprogramming of the system is required when one tenant moves out and another moves in

• Built-in call waiting assures that incoming or visitor calls are not missed. Unique double-ring identifies calls from the lobby panel. Regular incoming calls use the standard single ring

• 2 year limited factory warranty
### Mechanical

System requires one (1) main control or garden cabinet, one (1) relay board, one (1) connecting cable and one (1) RJ71C phone block for every 12 phone lines that the system will interface with. Lobby panel of your choice.

- One relay board required for every 12 phone lines to be interfaced.
- Decoder board required if system expands beyond 5 relay boards. One additional decoder board required for every 8 relay boards added to the system after the first 5 relay boards.
- Main cabinet can house up to 13 relay boards to interface with up to 156 phone lines.
- Garden style cabinet will house up to 5 relay boards to interface with up to 60 phone lines.
- Auxiliary cabinet can house up to 16 relay boards (and 2 decoder boards) to interface with up to 192 phone lines.
- Several different types and styles of lobby panels can be connected to the 1816 system.
