MOUNTING POST
FOR ALL APPLICATIONS

DKS offers a full range of mounting posts to meet your specific needs, whether for vehicular traffic or pedestrian traffic requirements.

Standard
The standard posts are used with card readers, keypads and smaller access control devices. A dual-height style is also available for applications that have both vehicular and truck traffic using the system.

Architectural
Architectural style posts are typically used with the larger telephone entry systems and are available in both styles for vehicular traffic or straight style for walk-up pedestrian use. Supplied as either post mount or in-ground models.

Designer
Available in an offset configuration for vehicular traffic, or straight for walk-up pedestrian use. Pad mount style only, and requires an additional electrical compartment that can house accessory transformers, surge suppressors and a radio receiver. Additionally, the optional light extension provides exceptional illumination.

Kiosk
The mounting kiosks are ideal for walk-up pedestrian applications, but can also be used in some vehicular traffic applications. Those kiosks are designed for DKS flush mount telephone entry systems only. Includes an electrical compartment that can house accessory transformers, surge suppressors, and a radio receiver. Ultra bright LED lights provide illumination on the entry system.

DoorKing
Available for all applications.
1. **Tough**
- Powder coated steel core for durability and weather resistance.

2. **In-ground**
- All posts feature a base plate and are engineered to withstand heavy snow loads, vehicle impact, and pedestrian traffic.

3. **Cover**
- All post models with base plates feature a cover to hide mounting bolts.

4. **Compartment**
- Vertical case for Designer Style posts hold up to 4 transformers, 3 surge suppressors, and an RF radio receiver.

5. **Lighting**
- Kiosks include ultra-bright LED lighting. Kiosks include ultra-bright energy-saving LEDs for walk-up pedestrian applications for DKS flush mount entry systems.

**Features**
- In-ground Mounting
- Vertical Case
- Horizontal Case
- Square, Dual Height, Offset Straight, Offset Small, Dual Height, Small
- Ratings: 1800, 1810, 1830, 1833, 1834
- Compatibility: 1802, 1802-EPD, and 1819
- For 1520 Card Reader, and 1520 Wiegand
- RF Keypads
- Digital Keypads
- Keypads
- Stand Alone Keypad
- Vertical Case

- Keypads
- Stand Alone Keypad
- Vertical Case

**Flush Mount Telephone Entry Systems**
- Standard, Architectural, and Designer
- Vertical, Horizontal, Square, Dual Height, Offset Straight, Offset Small, Dual Height, Small
- Ratings: 1800, 1810, 1830, 1833, 1834
- Compatibility: 1802, 1802-EPD, and 1819
- For 1520 Card Reader, and 1520 Wiegand
- RF Keypads
- Digital Keypads
- Keypads
- Stand Alone Keypad
- Vertical Case
1. **Tough**

- Galvanized steel used for durability and weather resistance.

2. **In-ground**

- In-ground adapter allows installing a kiosk in a sidewalk or curbside.
- All posts feature a cover to hide mounting bolts.

3. **Cover**

- All post models with base plates feature a cover to hide mounting bolts.

4. **Compartment**

- **Vertical Case**
  - **Model:** 1802
  - **Features:** 4-wire keypad, intercom, 4x8 steel case, 1x12 steel case, 3x8 steel case, 1x12 steel case.

5. **Lighting**

- **Optional:**
  - **Lighting:** LED lighting.
  - **Features:** Ultra-bright energy-saving LEDs illuminate the entry systems.

**Kiosks**

- Mounting Kiosks
  - **In-Ground Mount:** 1200-046
  - **Pad Mount:** 1200-045
  - **Offset Small:** 1200-049
  - **Straight Pad:** 1200-037
  - **Offset Straight:** 1200-038
  - **Straight Vertical:** 1200-016
  - **Offset Vertical:** 1200-017
  - **Full Case:** 1200-040
  - **Square Case:** 1200-011
  - **Dual Height Vertical:** 1200-014
  - **Square:** 1200-008

**Features**

- **Weather resistance.**
- **Standard:**
  - **1.** Ultra-bright LED illumination.
  - **2.** In-ground adapter is available for Designer style posts.
  - **3.** Vertical Case is available for Designer style posts.
  - **4.** Optional lighting feature is available for Designer style posts.
  - **5.** Lockable Pedestal feature is available for Designer style posts.

**Compatibility**

- **Full Case:**
  - 1200-040, 1200-010, 1200-011, 1200-049, 1200-016, 1200-017
- **Square Case:**
  - 1200-008, 1200-009, 1200-011, 1200-012
- **Horizontal Case:**
  - 1200-013, 1200-014, 1200-015
- **Vertical Case:**
  - 1200-016, 1200-017, 1200-018, 1200-019

**Which post for which product?**

- **Mount (6) 10x14 – 1802, 1802-EPD, 1808AP, 1812AP, 1808, 1812 Classic, Plus, and Access Plus with 1802-EPD.**
- **Mount (4) 8x8 – 1802, 1802-EPD, and 1802-EPD.**
- **Mount (8) 5x5 – 1802, 1802-EPD, and 1802-EPD.**
- **Mount (2) 2x2 Steel – 1802, 1802-EPD, and 1802-EPD.**
- **Mount (2) 4x8 Steel Case – 1802, 1802-EPD, and 1802-EPD.**
- **Mount (2) 4x12 Steel Case – 1802, 1802-EPD, and 1802-EPD.**
- **Bake Finish**
  - 1802, 1802-EPD, and 1802-EPD.**
**Designer**

Larger telephone entry systems. Full Case (except Offset Small)

- Ultra-bright energy-saving LEDs illuminate the entry systems
- Includes high-quality finish components: Designer Style posts can hold up to 4 controllers, and tower addition for Designer Style.

**Kiosks**

Flash mount telephone entry systems only

- Standard, Architectural, and Designer
- Slim Kiosk Design
- Vertical and Horizontal Mounting
- Optional Light Assembly

DKS offers a full range of mounting posts to meet your specific needs, whether for vehicular traffic or pedestrian traffic requirements.

**Standard**
The standard posts are used with card readers, keypads and smaller access control devices. A dual-height style is also available for applications that have both vehicular and truck traffic using the system.

**Architectural**
Architectural style posts are typically used with the larger telephone entry systems and are available in offset styles for vehicular traffic or straight styles for walk-up pedestrian use. Supplied as either post mount or in-ground models.

**Designer**
Available in an offset configuration for vehicular traffic, or straight for walk-up pedestrian use. Pad mount style only, and require adapter for in-ground mounting. Includes an electrical compartment that can house accessory transformers, surge suppressors and a radio receiver. Additionally, the optional light extensions provide exceptional illumination.

**Kiosk**
The mounting kiosks are ideal for walk-up pedestrian applications, but can also be used in some vehicular traffic applications. These bases are designed for DKS flush mount telephone entry systems only. Includes an electrical compartment that can house accessory transformers, surge suppressors, and a radio receiver. Ultra bright LED lights provide illumination on the entry system.

**Mounting Post**
For all Applications
All posts can be pad or in-ground mounted using either the base plate adapter for pad mount models, or the in-ground models which do not have a base plate and extend an additional 24 inches in length.
