

# 2108 eVolve

## VIDEO ENTRY SYSTEM

### Voice or Video calling and access management from anywhere with the DKS Cloud

**2108 eVolve**  
Surface Mount

- The 2108 eVolve is an advanced and versatile Video Entry System, allowing the homeowner or system users the ability to grant entry to guests even from thousands of miles away.
- The 2108 features Video or Voice calls in a broadcast mode for up to 4 phones simultaneously when the call button is pushed.
- Available with built-in paper directory for 12 names
- The 2108 control dashboard is browser based, so all that's needed is an internet connection and a web browser to access Entry System settings such as users, access time zones, entry codes and more.
- Residents can quickly grant guests access from their home phone or smartphone.
- Able to control up to three entry points, the 2108 eVolve operates with an internet connection or an optional cellular connection.

Internet Connection - Wired or Wireless

eVolve Technology Inside

**Wireless Cellular Connection Option**  
Use if an internet connection is not possible.

**Internet Connection**  
Use your existing internet connection for easy Plug & Play connectivity

**Live Video Streaming**  
Users with the DKS video calling app downloaded to their smartphone are able to communicate with guests via video stream

**Voice Communication**  
Talk to guests at a front door or gate from any telephone in the home, or mobile phone

**Broadcast Calling**  
Access requests from the call button can ring up to 4 phones simultaneously.

**Control from Any Device, Anywhere**  
Administrators can access system settings from any browser via the cloud.
